### **BioGraph Infiniti 5.1 Computer Requirements:**

#### **Recommended**

- Desktop or laptop with two monitor capacity.
- CPU: 1.8GHz dual core processor or faster.
- Operating systems:
  - Microsoft® Windows® 7 Home Premium, Business, Ultimate, or Enterprise.
  - Microsoft® Windows Vista® Home Basic, Home Premium, Business, Ultimate, or Enterprise with Service Pack 2.
  - Microsoft® Windows® XP Professional or Home Edition with Service Pack 3.
- DirectX 9c or later (if this is missing, it will be installed with BioGraph Infiniti).
- 50 – 60 gigabytes hard disk space for video recording and processing. (The software needs 2.5 gigabytes to install and run.)
- Minimum RAM: 1 GB (Windows® XP) or 2 GB (Windows Vista® or Windows® 7).
- CD ROM or DVD drive.
- Video Card (minimum XGA, 1024 x 768 monitor resolution).
- 32 bit compatible sound card & speakers.
- 1 to 4 USB ports, depending on the desired number of Pro/Flex Infiniti encoders.
- 1 to 4 serial com ports, depending on the desired number of ProComp+ encoders.
- Mouse or compatible pointing device.
- Compact Flash Reader (for use with compact flash card only).
- Webcam 30 frames per second (for video purposes only).
- Internet access (for updating software and receiving technical support).
- Microsoft® Office with Word® and Excel® (for report generation and printing).

**Microsoft Office 'Home and Student' DOES NOT WORK with the BioGraph Infiniti reporting functions.**

"Office 'Home and Student' is licensed only for non-commercial use by households. It cannot be used for any commercial, nonprofit, or revenue-generating activities, by schools or academic institutions, or by any government organization." – Microsoft Corporation

Note that this license restriction is enforced through limitations on the software's functionality. BioGraph Infiniti's reporting functions require you to use Office 'Home and Business' or higher.

#### **PLEASE NOTE:**

- **Tele-Infiniti CF (T9600) version 3.2.1 or higher is compatible with 64-bit Windows® operating systems. Version 3.1 or lower is compatible with 32-bit Windows®.**
- **When using Windows® 7 Home Basic or Business or Windows Vista® Home Basic or Business, additional codecs must be installed to view camera and DVD.**
- **Low speed CPUs (1.8 GB or less) may be sluggish when running screens with multiple instruments.**
